

A collage of numerous small photographs of students, arranged in a perspective that creates a tunnel-like effect leading towards the center. The photos depict various student activities, including sports, social gatherings, and individual portraits. Overlaid on the right side of the collage is the year '2012' in large, bold, grey numerals. In the bottom left corner, the words 'No Limits' are written in a large, white, sans-serif font. The entire background is a dark, textured grey.

**Below:** Emily Bertossi speaks of her memories in the high school, and looks forward to her future.

**Above:** "...We can't change the choices of our past, but we can always follow a different path for the future," Valedictorian, Justin McDonald said in his speech.

In high school, there are many different brands that people wear, things they use, teams they root for, and cars they drive. With all these different brands, battles start to take place. Many different people were interviewed and the results are shown below. Puma ended up with the highest vote for most comfortable and stylish shoe. Out of the three people that were interviewed for Michigan vs. Michigan State battle, State came out on top. State was named the better school because they have better sports teams. Freshman, Zack Farrow believes "Michigan State is better because their football team is better than Michigans." Aeropostale was voted better quality for its price and everyone seems to have at least one item from Aero. "It's a reasonably priced store and they have cute, stylish clothes," said Senior, Kaitlynn Reeve.

## BATTLE OF THE BRANDS

### NIKE VS. PUMA WHICH SHOE IS MORE COMFORTABLE?

Senior Emily Lloyd believes PUMA has more comfort because they make you feel like your walking on a cloud.

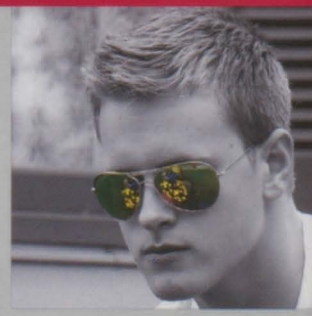

Sophomore Devin Cameron supports Nike because he has a Nike sweater.

Freshman Brianna Horton believes PUMA has more comfort because they have "Cats" :).

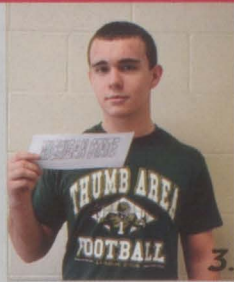

Sophomore Ashley Bruce believes Puma has more comfort because they have cooler style and it gives me more comfort when playing sports.

Freshman Nathen McVeigh believes Nike is a better brand because they make him look good.

## MICHIGAN VS. STATE

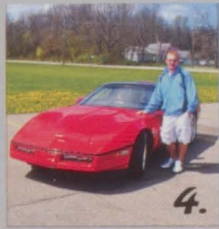

1: Freshman Scott Burns believes michigan is better because they have a great basketball team that is in the big 10. 2: Sophomore Caitlin Farenger believes Michigan state is better because she likes the colleges USTL fighting team. 3: Freshman Zach farrow likes Michigan State better because of the football team.

## CHEVY VS. FORD

Which lasts longer?

1: Sophomore Camryn Anderson thinks Ford lasts longer, because it all started with the Model T. 2: Senior Brandi Peyer Has a Chevy Truck. She believes Chevy lasts longer than Ford because Chevy Runs Deep! 3: Sophomore Angela Szymanski believes Ford lasts longer because the body of the cars are better. 4: Junior Kristopher Klutz owns a Chevy Corvette that his dad bought for him. He believes Chevy lasts longer because the Chevy muscle cars you see are in better condition than Ford muscle cars.

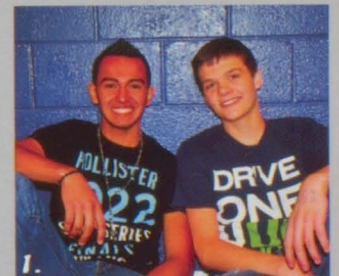

## Hollister VS. Aeropostale

Which stores clothing has higher quality for the price you pay?

1. Sophomore Matt Mills and Senior Jesus Cardenes believe Hollister has higher quality clothing for the price.

2. Freshman Karlie Laasko believes Aeropostale has better quality.

**Lee Zuhlke-**

-Stephen Cosgrove

Capac High School has a diverse and unique student body. Many students participate in the ordinary high school activities such as football, baseball, soccer, cheerleading, track, etc, but we have some select individuals who break free from these traditional, average routines. "Don't be scared to be who you are," said sophomore Taylor Aversa. These individuals require skill, strength and more. When you take a look at someone you don't expect them to be a dancer, a weight lifter, a motocross fanatic, a hacky sacker, a snowmobiler, or a horseback rider, but at Capac High you better expect this. The diversity at Capac is shooting out the roof and we would like to recognize these students. This page will herald the unheralded athlete.

Dakota Perry, Sr., shows his strength and power lifting skills benching the astonishing weight of 295 pounds.

Camryn Anderson, 10- "I travel around to different states for my races which takes a lot of time. You have to be focused when your racing because you can't screw up."

Sean McPherson, 12- "Racing is a lot of hard work. If your car breaks you have to know how to repair it. It's a really exciting sport. It's out of the ordinary, but it's just as hard as any other sport."

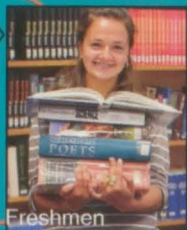

Skylar McArthur, 9- "My team and I travel across the United States and perform. It takes alot of time and effort."

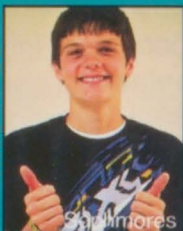

## What Capac Slang Word do you use the most?

"Caked, because I always have so much homework everyday!"

Freshmen

Matt Mills

"Plopped. It's easily the perfect word for anything sweet!"

"Goon! Our school is so filled with 'em, it's totally nuts!"

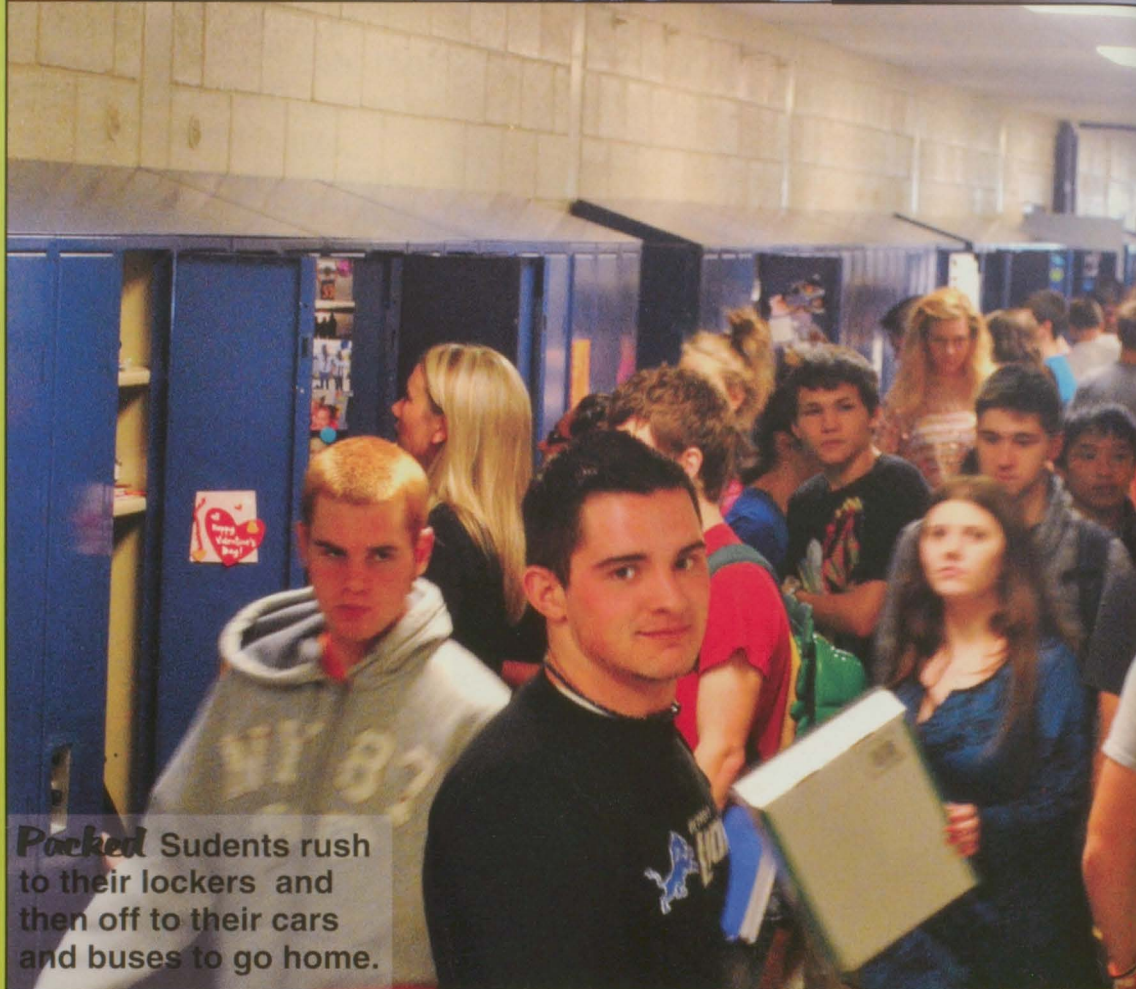

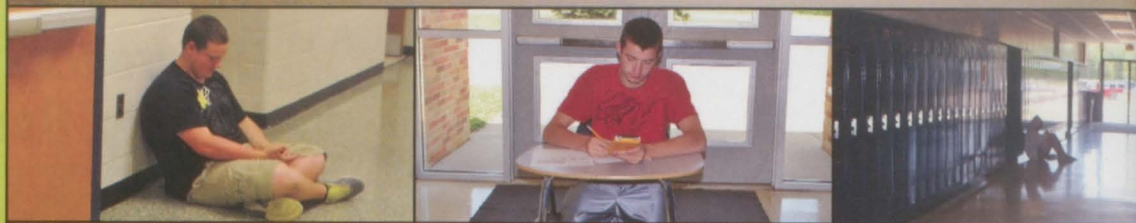

Juniors

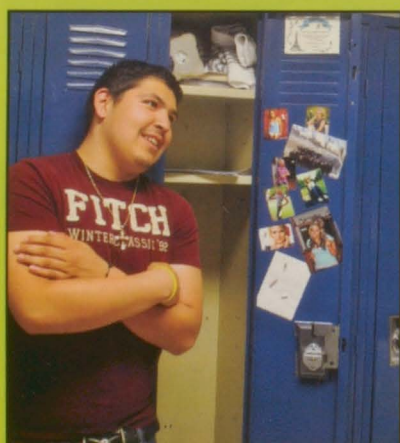

Dustin Morgan

"Beauty!! people think it means cute/hot but here it means not so pretty."

**Packed** Students rush to their lockers and then off to their cars and buses to go home.

**Missing This** Manuel Morales, Senior, reminisce about all of the memories his locker and him have gone through.

20

**Empty Feeling** Sophomore hallway before the Final bells ring for the day.

## Whose Locker!?

Try to guess whose lockers these are?!

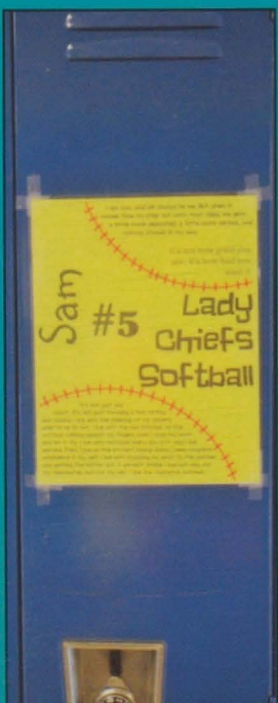

# Chiefs <sup>In the</sup> Hall

After the bell rings you get five minutes to spare. five minutes to put away your books and grab the next mound of folders and papers. You go to class to find your assigned seat, then put down the load that was bearing on your arms and shoulders. Now you leave class, and go to one of your friends lockers to catch up on the latest gossip, or you go into the bathroom to do your business. Whatever you do, be sure to get back before the bell rings, for you only have 7 total absences, and 1 tardy counts as half an absence. So you better hurry!

**Spin It** Kevin Tompkins tries to get into another students locker but fails.

**Trouble** These students got kicked out of class by Mr. Muldoon when he overheard them talking about speakers in class, while they were taking a test

# Hobbies & Jobs

## National Champion

Capac students have the opportunity to work after school. Making some money for recreation is something students like to do. The work force is also a good way to turn a child into a mature young adult. Not all students like to spend their money though. Most kids like to have some time to themselves. Hobbies keep students out of trouble and enable them to have fun too. Whether it's a Motorcross Race or working at Lucky's, the students are always busy after school.

Austin Peak, Justin Peak, Sean O'Brien, Cody Neumann, Jake Beaudin, and Jagger Beaudin all race on the weekends. To them, this is almost like a job. Between practice and racing every weekend, motocross takes a lot of endurance, and hard work.

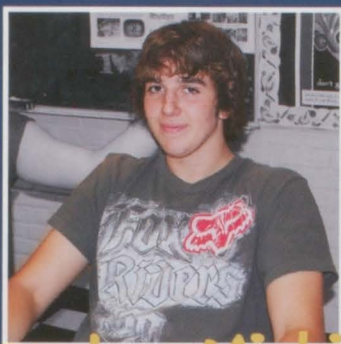

**Left:** Megan Veshka loves people, and she gets to work with them all day long, waitressing at Louies.

The Powder Puff game of 2011 was one of the most intense competitions Capac has ever watched. It was truly a battle, but, in the end, the Juniors came out on top, beating the Seniors, 28-26. This is the first time in many years that the Juniors have won the Powder Puff game.

# Snow Coming Royalty

February 3-4, 2012

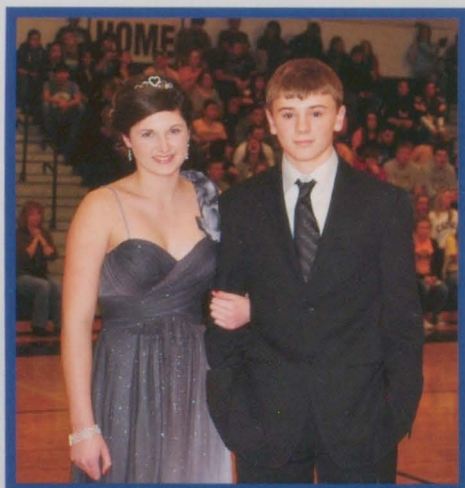

Night of glam and enchantment bedazzled Capac High students as they prepared to attend the most awaited evening of the winter season. A week before the dance and ceremony, each grade nominates one boy and one girl to represent their grade and the Senior class votes for three girls and three boys. The top 5 with the most votes had the honor of being on Senior Court. During Snow Coming the entire student body vote by the "Penny Wars" put on by the Student Council to raise money. Each Royalty member gets a jug and the one with the most pennies wins. But there is a catch, if one puts in any money other than a penny, that amount is subtracted from their total "penny" amount. The Snow Coming Drama really heats up!

According to Snow Coming Queen Katherine McVeigh, "The drama surprisingly didn't ruin anything between the royalty girls. We were happy for whoever got it and we all looked beautiful."

Give Me A "C"

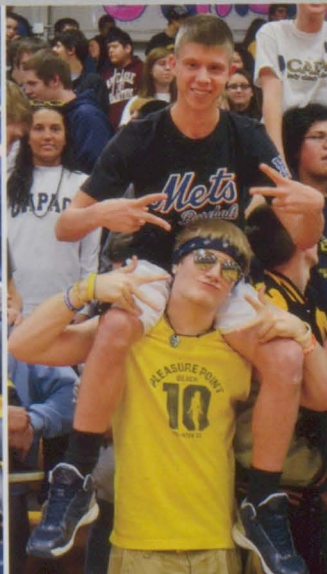

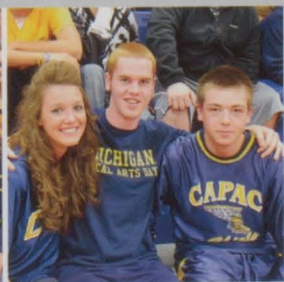

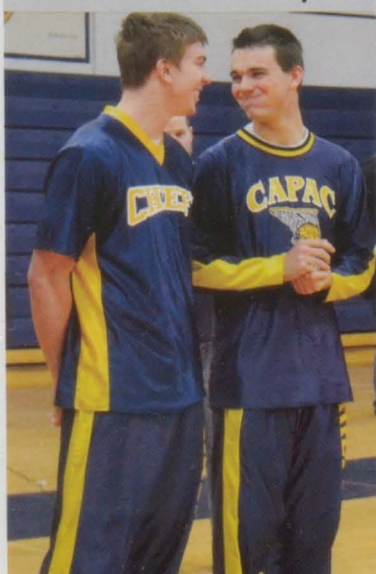

"Shivering in the cold with their flip flops and ski hats, students dress up for surf sun and snow day. On Tuesday neon day is a big hit although Seniors still claim 1st place in the battle for the Spirit Jug. On Wednesday we saw a flash of double for multiplicity day, and the tacky designs of fashion disaster day. From mix match to neon colors, students left behind their normal style to show off their Chief Pride on Fridays blue and gold day. The Friday pep assembly resulted in high hair and messy faces and the Seniors walking away happily ever after with the spirit jug."

# [Technical Education Center]

The Technical Education Center is a skills and trades school in Marysville. Students who want to excel in the skills they love, come to Tec. Tec gives them the experience with students from other schools while learning new trades, that Capac doesn't offer. The hands on experience is way of learning that sometimes can't be taught on a chalk board.

## Art Class

"The arts are an essential element of education, just like reading, writing, and arithmetic...music, dance, painting, and theater are all keys that unlock profound human understanding and accomplishment."

—William Bennett, Former US Secretary of Education

Art is a form of expression. Capac High School has a lot of talented students that spend their time creating master pieces. Art can be expressed in many different ways, painting, drawing, sketching, molding, 3D art, photography, and many other ways. Art can be used to express your feelings. Capac has an Art 1 class, Art 2, Art 3&4, Intro to drawing, and an Art Club. Mrs. Lathangue and Mrs. Termini direct the Art Classes.

To say this year's musical *Willy Wonka & the Chocolate Factory* was a success would be a huge understatement. The excitement for the musical buzzed throughout the halls of Capac High as green haired Oompa Loompas and even the 'Candy Man', Willy Wonka himself roamed the school leading up to the much anticipated show date. For three straight nights the junior high gym was packed full of enthusiastic audience members, ready to embrace the magical spectacle that is Willy Wonka and his factory. After months of hard work and preparation the cast and crew stood behind the scenes ready to give the performance of their lives. The lights went down in the gym as the orchestra played the famous tune "Candy Man". Apprehensive, with sweaty palms and a racing heart, one man stepped out on stage ready to make history. He succeeded, as *Willy Wonka & the Chocolate Factory* was the highest grossing musical Capac High has ever produced.

**Above:** Caleb Silorey starring as Mr. Willy Wonka greets the lucky golden ticket winners at the gates of his world renowned candy factory. Meanwhile, Monica Herrera playing her role as reporter Pheobe Trout is standing by to get the scoop.

**Mock Trial:** Mock Trial is the one club that you can be somebody your not, say you're shy but you still have the potential to be a great lawyer. Being a lawyer you can portray a totally different person and be confident in what you do and show a new confident side of you that people haven't ever seen before. Being in Mock Trial takes extreme dedication, you need to be able to give time to memorizing your part if you're a witness and if your a lawyer you need to know your witnesses part that you are defending and the witness you are prosecuting.

The day was long and filled to the brim with stress and anxiety. Over 700 students and 48 teams competed for the coveted top 8 and advancement to the state finals. After tallying the results, Capac Team C (comprised of Jessica Xiong, Ashley Bruce, Tayler Aversa, Sydney Grewe, Devin Cameron, John Nothafft, and Jeff Adams) brought home a trophy! They received honorable mention status which placed them 13th in state! sadly they did not proceed to states.

Capac's Team B (comprised of Jessie Laeder, Marissa Wrobel, Amber Ladas, Cody Husovsky, Melanie Sly, and Miranda Greenia) also brought home a trophy they finished top 8 which means for the second year in a row Capac High School will be competing for the state championship.

Great Job to both teams!

"Leaders aren't born, they are made. And they are made just like anything else, through hard work. And that's the price we'll have to pay to achieve that goal, or any goal."

24/7 is a club that center's their group meetings around God. The kids in 24/7 get to become closer with eachother while making a stronger relationship with God. 2. Mr. Cutler hides his face, he didn't want anyone to see him without his false teeth in.

2. Capac Choir joins up with the High School Band to perform at the first ever Mid Winter Concert.
3. The High School choir pulls off their last hoorah at the final concert of the year the Spring Concert.

It takes a special type of person to be a performer. With hours upon hours of rehearsal put into every song before every performance, it takes dedication and desire to stay focused and achieve the common goal of a solid performance. This year's high school choir paid their dues and it was worth every ounce of effort. For the second consecutive year the group recieved an excellent rating at district festival and was invited to perform at state choral festival, where they also recieved an excellent rating. As we say good bye to the Seniors of 2012 the choir loses the most successful class of performers. They had 3 trips to state festival, which is the most the Capac Choral program has ever had. The Seniors leave a legacy behind, they set the standard for musical excellence and influenced the younger classes. The program now moves forward with a group of young determined performers ready to leave a legacy of their own. Here at Capac we take Choir seriously and excellence is the only acceptable outcome when we take the stage.

## Metal & Soul 2064

This year's Robotics teams went above and beyond the call of duty. The hardwork and dedication of these young men and women directly reflects the success they had at the district and state level. Countless hours of blood, sweat, and tears were put in to achieve one goal: to build one lean, mean, robotic machine. After months of preparation the teams went to their respective district competitions and took home the prize. Both teams stuck strong to their convictions and despite their differences they both firmly believe in one principle; that if you're going to build something you're going to do it right. The Capac Robotics program now moves forward with some of the brightest young minds in the area.

## Student Teacher Mr. Zebelian

- 1. Where did you attend school?** Armada High School, Saginaw Valley State University.
- 2. What are the pros and cons of student teaching?** It is a great learning experience. It keeps you very busy but you get to see what teaching is really like and it is a great thing.
- 3. What was your first reaction to Capac, and how has it changed since then?** All of the staff was very welcoming and helpful with advice and the students are all great. I was able to develop great relationships.
- 4. What is your best moment of student teaching and your worst?** I really enjoy when students have fun doing a lesson. I don't like friction between a student and myself. That is never a good thing.

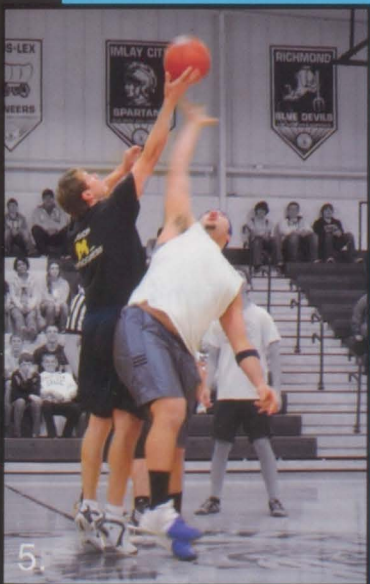

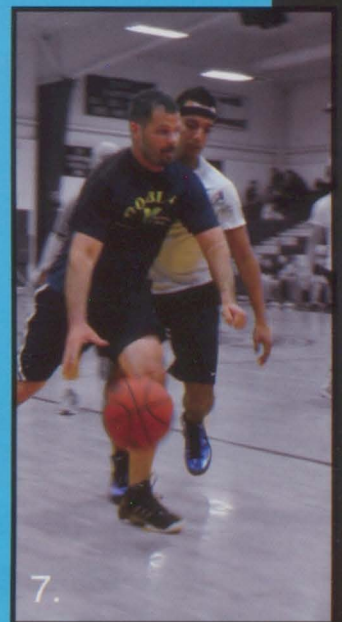

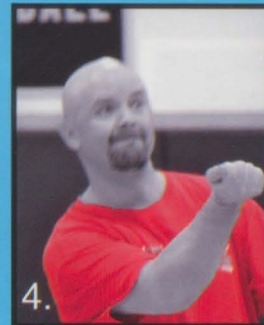

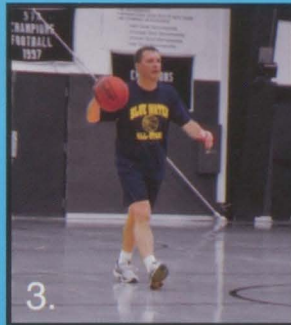

# Staff v. Students

## Volleyball & Basketball

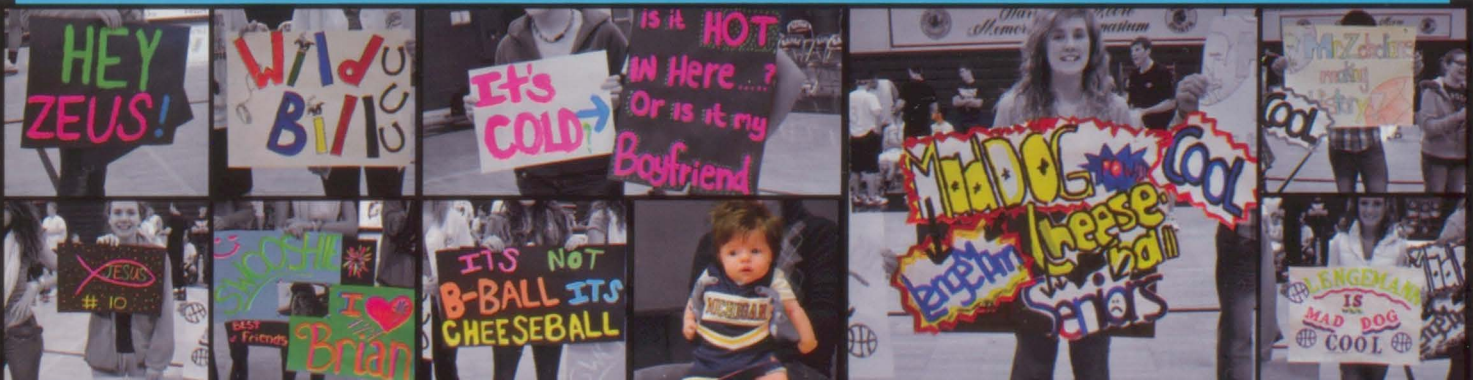

## Dedication.

Students show their support and root on their favorite players

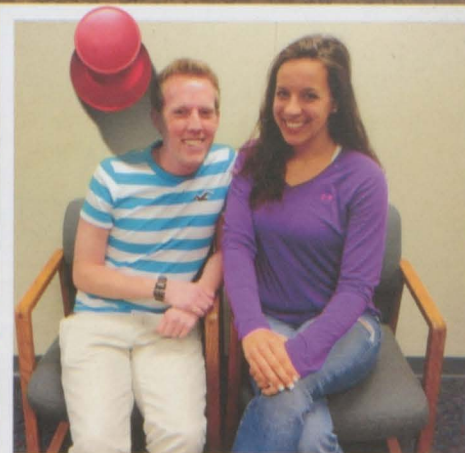

1. Krystal Kegler takes a dig at as Baba gets ready for a return. 2. SeanO strikes a pose before refing. 3. Mr. Huss brings the ball down the court. 4. Mr. Roerhing as he takes a serve. 5. Mr. Lengemann makes it look easy getting the jump ball from Dakota. 6. Mr. Zebelian takes a drive towards the basket. 7. Jesus attempts to steal the ball from Baba as he looks to score. 8. Brandi bumps the ball to the setter after it's hit to her. 9. Dakota gets low as he protects the ball from his opponent.

**Below:** Students support their favorite players with their unique signs. And Mr. Baba's daughter :)
